

Decor Selections

2020

OVERVIEW

We are pleased to release the décor selections for the exciting new 2020 Jayco range.

The 2020 Jayco model range décor has received some minor changes in joinery colour. The main point of difference over the 2019 range will be the 2020 Camper range now standard in Rovere joinery.

A total of nine new and fresh fabric combinations have been added to the 2020 range with a number of new Laminex bench top colours added. These are available across the various product series. Leather and Leatherette have been reduced to three selections.

Door handles have also been upgraded. In 2020, we will see the introduction of matte black handles and pushbuttons across the Journey, Expanda, Crosstrak Basestation and Conquest range. A fresh looking titanium finish handle and pushbutton have been introduced to the Silverline Caravan and Optimum

Motorhome Range. No change to Campers with Starcraft Pop Tops and Caravans to receive chrome handles and pushbuttons.

Bedspreads have also been upgraded in 2020 with two new selections giving the van a contemporary finish while on display in your dealership.

We believe the there décor selections available on the 2020 Product range will ensure another successful year in our history.

Kind Regards,

Jayco Sales, Branding & Communications Team
